**W**orld Environment Day is celebrated every year on June 5. The day was first observed in 1974 by the United Nations in order to raise awareness to protect our surroundings. The day is also known as Eco Day or Environment Day. Every year the day is observed with a specific theme. This year, the theme is Ecosystem Restoration and Pakistan will be the global host of the day.

It has become quite important to save our environment by planting trees, rewilding gardens, changing diets, or cleaning up rivers and coasts. Hence we have enlisted some of the messages, quotes, and wishes to send on World Environment Day 2021 to your friends, colleagues, and relatives to raise awareness.
